FOR IMMEDIATE RELEASE

Backstage's Review & Company Update of protalentPERFORMER

protalent software is pleased to announce a fantastic review of protalentPERFORMER, The Total Career Organizer for Performers, in the April 26th issues of Backstage East and West. The review can also be found on Backstage.com. Here is a brief excerpt:

"a wonderful software package that...tracks every crumb of the acting life...The income and expenses section of protalentPERFORMER looks like Microsoft Money or Quicken; it bests them by being formatted for an actor's expenses right out of the box."

---[Backstage East & West](#)

"We are thrilled about the review" said Christopher Hodges, CTO. "We have consistently received great reviews from the industry and it is always nice to have all of our hard work validated."

protalent software has also had a number of exciting developments in the last few months. In early March the Multi-User Licenses for Showbiz Families was released. This highly anticipated new option is perfect for showbiz parents who need to organize the careers of one or more children and homes with one computer and more than one performer. Also, protalentPERFORMER™ is now available in stores!

protalentPERFORMER™ remains the only career organization software for performers to offer three different versions (Basic, Deluxe and Premier) on the Mac, Windows, PalmOS and Windows Mobile platforms. As Backstage says, "the creators--an actor and a software developer--are continually updating the program" so expect to see even bigger things from them soon.

Actors, singers, dancers, models, comedians, voice actors, showbiz parents and background actors in the US, Canada, Australia and the UK are benefiting from protalentPERFORMER. Call or visit your local college, bookstore or drama shop to ask for your copy.

protalent software was founded by performers and software developers who understand how important it is for performers to keep their busy lives organized and focused. With a combined 25+ years of experience in the entertainment, software development and product management industries, protalent software is dedicated to providing total career organization solutions for performers.
